

# FIRE RESPONDER FIRE FIGHTER

## COURSE OUTLINE

This is a course covering the control of a fire emergency, general fire safety and the use of fire fighting equipment, including, hose reels, fire hoses and fire pumps when working under supervision,.

The training consists of theoretical, practical and realistic exercises that cover all industry scenarios.

Participants will be assessed in both theory and practical skills in all aspects of urban and industrial firefighting.

Our expert trainers and assessors have over 25 years of operational firefighter experience and will guide and assist participants in how to effectively deal with modern fire fighting techniques. This course can be adapted according to client requirements.
